# THE ATLANTA CONSTITUTION.

VOL. XXVI.

ATLANTA, GA., SATURDAY MORNING JUNE 24, 1893.

PRICE FIVE CENTS.

## THEY WERE NOT IN.

Cabinet Members Adopt President Cleveland's Rule.

COLONEL THANHouser IS COMING.

Miss Pollard's Southern Spirit Won the Silver Tongued's Heart.

A CHANCE FOR A SCHOLARLY FARMER.

The Department of Agriculture Has a Place for a Linguist-General Go-sip of the National Capital.

Washington, June 23.—(Special)—Colonel Sam Thanhouser, of Atlanta, can begin to pack his trunks preparatory to taking a trip to the land of the Montezumas. His name was not bulletined today, but Mr. Quincy, assistant secretary of state, said that the Atlanta's name will come out very soon. Indeed, a blank appointment was filled out with his name as consul to Acapulco, Mexico. But before the commission was carried to Mr. Cleveland to sign, Mr. Quincy agreed to give Colonel Thanhouser the choice of two places. As wired last night, Acapulco and Matamoras were placed at his disposal. He designated Matamoras, the place on the Rio Grande, which is more desirable than Acapulco, which is away down on the Pacific coast.

John B. Richardson is the present consul at Matamoras. He was appointed by Mr. Harrison.

Today was dull for the Georgians in the capital. Being cabinet day, nothing of special importance occurred. The secessaries have adopted the ruling of the president which precludes the possibility of their being seen on cabinet days, so the congressmen had to take to the woods for occupation.

Confessions Made Good.

The United States court of claims has adjourned for the usual summer vacation until October 16th next. A number of opinions were announced. Among them was one in favor of James A. Briggs, of Kentucky, administrator of C. M. Briggs, for \$88,104 for cotton seized by the United States government during the war of 1861-65.

A decision was also rendered in favor of the Old Corporation bank of Virginia, now represented by W. B. Isaacs, W. C. Taylor and John C. Williams, for \$16,087 in gold. This was a part of \$177,721 in gold captured at the end of the war by the union army in the fall of Richmond.

The sum of \$146,529 belonged to the confederate states, and was confiscated; but the amount owned by the bank of Virginia is now, by the decision of the court of claims, returned.

He Liked Her Spirit.

The engagement of Congressman W. C. P. Breckinridge, of Kentucky, to Miss Madeline Pollard is announced. Miss Pollard was at one time a clerk in the interior department. At the time of General Sherman's death she made some remark to the effect that she did not like it. Soon thereafter she disappeared from the department. It was understood at the time that it was because of the remark that it was because of the remark she had made on General Sherman.

Miss Pollard is now the guest of Mrs. Blackburn. She is a sweet and popular lady, especially with the southern colony.

Representative Breckinridge is fifty-six years old. He is hale and hearty, and one of the most eloquent orators in America.

Confessions Made Good.

The Comptroller Eccles is a pretty conservative sort of a young man, but the probabilities are that he is somewhat worried over the bank failures reported to him during the last week. Doubtless Mr. Eccles was satisfied a week ago that there would be but little additional trouble in this direction. President Cleveland's statement that he would call congress together in extraordinary session in September or earlier, Mr. Eccles thought, satisfied the people throughout the country that there was little danger ahead. Some of the failures reported during the last week were, without doubt, caused to some extent by the mismanagement of those in charge. They proved excellent indeed, but the delay and waste of energy in propelling the Leviathans is still a drag. There is but little doubt in the minds of those who have knowledge of naval architecture that the loss of the Victoria was mainly due to the defects referred to above. It is probable that either the Camperdown or the Victoria could not lessen the impetus received from its engine unrequired. It is also commented that while scarcely anything has been done to nullify the action of the ram, the navies of the world have given hardly a thought to the lifeboat. Taking it altogether, the disaster is regarded by naval men as a severe lesson to the navies of the world.

The Ship and the Admiral.

The Victoria was a twin-screw battleship, of 10,070 tons and 14,000 horse power.

She mounted fifteen guns.

The Camperdown is also a first-class twin-screw battleship. She is of 10,000 tons and 11,500 horse power, and carries ten guns.

Both ships are now under construction.

Admiral Sir George Trion was

commander-in-chief of the Mediterranean Squadron. He was made a vice admiral August 20, 1891.

Rear Admiral Albert H. Markham, of the Trafalgar, flagship of the rear admiral in the Mediterranean, has telegraphed to the admiral, from Tripoli, the following:

I beg to report that while maneuvering off Tripoli this afternoon the Victoria and Camperdown collided. The Victoria sank in fifteen minutes in eighteen fathoms of water. She lies bottom upward. The Camperdown is also a first-class twin-screw battleship. The rudder of the Victoria is off the stern of the Camperdown side. Twenty-one officers were drowned. Two hundred and twenty-five men were drowned. The injury to the Camperdown has not yet been fully ascertained, but it is believed that she will need assistance to get her to port.

## THE CENTRAL CITY.

Walden High School Holds Entertaining Commencement Exercises.

AN ADDRESS BY JOHN T. BOIFFEULLET.

A Widow Gets a Verdict for \$8,000 Against the Central Railroad for Her Husband's Death—Juries Dismissed.

Macon, Ga., June 23.—(Special.)—The closing exercises of Walden High school were held today. There was a large and present and all greatly enjoyed the delightful and well rendered programme. Walden High school is situated in the Rutland district about ten miles from Macon and it is one of the most flourishing and successful institutions of learning in Bibb county. Rutland district is one of the most beautiful garden spots in Georgia. It is noted for its fertile fields, blooming meadows and luxuriant orchards. The people are intelligent, progressive and prosperous. Professor C. W. Kilpatrick is the able and popular principal and he is admirably assisted by Miss Lucy Scott Rankin and Miss Mary Niles, the latter lady having charge of the music department. All are very accomplished and faithful teachers. The exercises today would reflect credit on any school of similar grade in Georgia. The students came principally from the city of Macon, all parts of Bibb and many came from Houston, Crawford and adjoining counties. The commencement this year was one of the most successful in the history of the institution. Graduates from Walden are well qualified to enter any of the colleges of the state. Their instruction is thorough.

The literary address was delivered this morning by John T. Boiffellet, of Macon. The entire programme was as follows:

Chorus.—"Welcome"—Class.

Latin—Junior class.

Instrumental Duet, Galop—Gusse Holt and Little Vinson.—Second class.

Reading and Spelling—Second class.

Instrumental Solo, "Dixie Land"—Pearl Clark.

Arithmetic—Third class.

Song, "The Wolf Doggie"—Class.

Academic Singing—Instrumental Trio, "Little Roomy"—Minnie Montt and Kate and Leslie Willis.

Recites.

Overture, "Caliph of Bagdad"—Kate and Leslie Willis.

Arithmetic—Fifth class.

Instrumental Duet, "Run of Luck"—Mary Vinson and Mamie Grace.

Vocal Solo—Dr. George Niles.

Drama—"The Merchant of Venice."

Song, "Mengenle"—Class.

Instrumental Duet, "Bicycle Polka"—Missie Morris and Gusse Holt.

Academic Singing—Instrumental class.

Instrumental Duet, "Marcell Gras"—Pearl and Walter Clark.

Vocal Solo, "The Merry Morning"—Dr. Niles and Miss Niles.

Academic—Fourth class.

Instrumental Solo, "The Blue Bells"—Mary Little Vinson and Alma Avant.

Address—Hon. John T. Boiffellet.

Academic—Junior class.

Pantomime Recitation, "The Bachelor's Pantomime."

Two programs involved in a difficulty this afternoon about Butler's brother and Butler sent Heath, inflicting wounds that may prove fatal.

The superior court now is engaged on a suit of C. S. Stratton against the Macon Gaslight and Water Company for \$10,000 damages for damming up and otherwise interfering with water on the plaintiff's land.

In the United States court today Judge Speer dismissed the juries until July, as he goes to Savannah to preside with Associate Justice Jackson at the hearing in the Central railroad case.

Information has been received here that Dr. W. Furlow Holt, a dentist of Macon, had been crushed in Chicago and is now lying in an unconscious and critical condition.

## "THE BLACK AGENTS" OF TEXAS.

A Woman Exposes Her Husband in Order to Save Her Brother.

Louisville, Ky., June 23.—Information was this morning furnished the Louisville police which may result in the capture of one of the most notorious bandit organizations that ever terrorized Texas, even in its earlier days. The organization is known as "The Black Agents." The gang is the one which of late years composed a number of hundred bands in and about the capital and one of the largest cities of the Lone Star State. The information given to the chief police is in the form of letters addressed to John Warner, a well-known citizen and is from his sister, who resides at Bird Springs, Travis county, Texas. Some time ago she informed him that he intended closing out his business here with a few thousand dollars, go to Austin and there engage in business on a larger scale. She also informed him that he intended that he would bring his unmarried sister with him, that young lady being engaged to a man in Austin, to answer the sister, the wife of her husband, who was not to come to Texas. She said in the event of their coming to Austin she knew of a plot formed by her husband to murder Warner and his wife.

They followed that most interesting part of the story. Mrs. Wende said that since married life had been a most unhappy burden for her, but that her disreputable husband, of power, had her in his power, and the warning she wrote was sent in peril of her life. She said that she had nothing compared to the love she bore her brother and sister, against whom her husband and his confederates were plotting. The unhappy wife said that she had written to the red devils of a band known as "The Black Agents," which was composed of three hundred or more men, of whom had taken an oath to her, to behead her brother and sister, "Black Agents," but to pillage and murder whomever they could. Mrs. Wende then told of her husband's secret. The "Black Agents" had committed it in that instant, and also alighted to others who occurred in California. She said her husband is the tool of the "Black Agents," and she enclosed the letter by stating that she could not stand too long for her brother and sister to remain alive in Texas. The mode of disposing of their victims was described as follows: It is similar to the way in which the mysterious murders about Austin have been committed. The bodies of the victims are chloroformed and then stabbed.

Warner, who received the letter, pleaded guilty immediately with the reporters not to use the information, but he said as he feared his sister's husband would find that he had betrayed him and would end his life, he says he has done so many others. The brother and sister, however, that Wende would be in the hands of the police long before any information of the letter received here would reach him.

## Lovers Give Parents the Slip.

St. Louis, Mo., June 23.—(Special)—Canned evidently is getting a reputation for run-away, it seems. News has just reached here to the effect that Mr. Tracy Sheld and Miss Ola Miller, who are engaged and they are probably married by this time.

Both parties live in this country and went to Sunday school as usual last Sunday. After school was over they took their books preparatory to going for a ride, so they told their friends around the grounds.

The parents objected to their marrying, but it is believed that they went off and were wedded.

## Fashion Note.

The Boston Herald.

The "Lambeth" is the very latest thing in waistless jackets.

## BOTH ACQUITTED.

Father and Son Who Were on Trial for Murdering a Deer Poacher.

HE FIRED AND WAS RUNNING OFF.

They Shot Him in the Back—The Jury Considered it Justifiable—Other Savannah News.

Savannah, Ga., June 23.—(Special)—The jury tonight at 10:30 o'clock acquitted Gugie Bourquin and his son, charged with the murder of G. W. Farrell on Christmas eve last. Farrell was caught poaching for deer on Bourquin's place a few miles from the city. Bourquin and his son went out to drive him off. They all got into a scuffle and when the crowd are fully ripe for marketing purposes, we will have all we can do to give proper accommodations to our patrons. I am preparing for any emergency, and whatever shambles are given us will receive the same attention. The metron organ is ready to move, and Georgia will certainly furnish her share for the northern markets this year."

The Atlanta and Florida, under the able management of Captain Garrett, is coming to the front.

## THE RAILWAY WORLD.

Matters Pertaining to the Business That Will Be Read with Interest.

A FEW GRAPHIC PARAGRAPHS CULLED.

Something About the Watermelon and Peach Crops—Talk with Several Railroad Officials.

General Manager Thomas W. Garrett, of the Atlanta and Florida, in speaking of the movement of fruits, etc., from the lower portion of the state, said:

"We are getting into shape the business of the railroads, and when the crops are fully ripe for marketing purposes, we will have all we can do to give proper accommodations to our patrons. I am preparing for any emergency, and whatever shambles are given us will receive the same attention. The metron organ is ready to move, and Georgia will certainly furnish her share for the northern markets this year."

The Atlanta and Florida, under the able management of Captain Garrett, is coming to the front.

MR. CHARLES HARMAN.

Has Returned to the City from Asheville, N. C., Where He Has Been Several Days.

General Passenger Agent Charlie Harman, of the Western and Atlantic railroad, after several days spent in Asheville attending the rate committee of the Southern Passenger Association, returned to the city yesterday.

While Mr. Harman was gone he carried a point before the committee that will not only prove a wonderful blessing to tourists to the world's fair, but to all that are concerned. Mr. Harman succeeded in getting the committee to issue the authority to all railroads in the south selling tickets to the world's fair to allow the purchaser the privilege to get over at any time and the route which he may travel, which includes the following cities: Chattanooga, Cincinnati, Louisville, Mammoth Cave and Evansville.

Mr. Harman, by getting the committee to adopt this rule, receives the hearty thanks of all the traveling public. Thus Colonel Comer stated that this work was also done by Mr. Harman, and he has deservedly earned a point before the committee that will not only prove a wonderful blessing to tourists to the world's fair, but to all that are concerned. Mr. Harman no clever railroad official can be found to match him.

## "HARVEST" EXCURSIONS.

They Will Be Run to Arkansas and Texas from Georgia by Different Roads.

The annual "harvest" excursions west, which have been in vogue throughout the south for the past several years, will be run this year.

The Wadley Drawbar Company had

shipped eleven thousand crossties from the principal streets of Macon. Mr. Calhoun stated that this work was also done by Mr. Harman, and he has deservedly earned a point before the committee that will not only prove a wonderful blessing to tourists to the world's fair, but to all that are concerned. This work was also done by Mr. Harman, and he has deservedly earned a point before the committee that will not only prove a wonderful blessing to tourists to the world's fair, but to all that are concerned. Mr. Harman no clever railroad official can be found to match him.

Mr. Harman no clever railroad official can be found to match him.

## HARD TO GET OPEN.

The Vice President of the Brunswick State Bank Going After Funds.

Brunswick, Ga., June 23.—(Special)—Vice President Alfred J. Crovatt, of the Brunswick State bank, left tonight for New York on bank business. Judge Crovatt, who was born in this city, is a member of the board of directors of the bank and the president of their depositors at once and have them all paid off before Saturday noon.

"We have made arrangements to pay the \$140,000 for the building at once and have the money at our disposal now," said Mr. Crovatt. "We have been unable to get the bank built, but for certain reasons we were unable to make the deal. The matter will be attended to the first thing in the morning."

Thus it is seen from Mr. Venable's talk that the depositors will have no delay in getting their deposits back so far as the payment of the \$140,000 is concerned.

Where the Money Came From.

The Vice President of the Brunswick State Bank with which to pay the bank open, and so far as we are concerned the bank building, returned from Stone Mountain yesterday and was seen last night by the sheriff of the county.

The session ended in little being done with regard to the question presented and for what was done.

A meeting will be held later, when the subject will again be brought up for discussion.

The Fare to the World's Fair.

The Nashville, Chattanooga and St. Louis railway will open yesterday sold tickets to the world's fair, which will be held in St. Louis.

The officials of the Evansville road have decided to sell tickets to the world's fair.

On June 25, the Atlanta and St. Louis people here to reduce the rate to \$31.44, which has been done.

## BOUND HAND AND FOOT.

This Is the Fix an Express Messenger Was Found In.

St. Joseph, Mo., June 23.—When the Rock Island bound train, which left here at 7:45 o'clock last night, reached Virginia, Neb., it stopped up on the road to the west, and the express messenger Spear if a man named Tompkins was to him and said that he was not and that the man asked him to stop and let him have a minute of a revolver leveled with one hand and a knife in the other hand.

Mr. Merrill, assistant passenger passenger agent of the Pennsylvania railroad, was in Atlanta last night.

Colonel George R. Thompson, the bustling president of the Pennsylvania system, was in Atlanta yesterday.

Mr. J. M. Fleming, one of Savannah's popular railroad officials, was in the city yesterday.

The company that worked to secure this loan are to be praised by the citizens of the city, and the way they did it.

They have been in the same position as the citizens of the city, and the way they did it.

The company that worked to secure this loan are to be praised by the citizens of the city, and the way they did it.

Mr. Spear consented. When the train began to move out Spear looked to see what had happened to him and saw that he had been shot in the head.

at Special Interest to Georgia.

With the recent reorganization of the state geological department of Georgia and the newness of life that has been inspired into the work of the survey to be made of all the mining regions of the state and then with the desire to aid the mining industries it becomes to see that Georgia will yet realize great things from her mineral interests.

It is a peculiar and well established fact that 80 per cent of all the gold yet discovered is in the form of a refractory ore, which means that it is in combination with other elements which render it difficult and in many cases impossible to free it in sufficient quantities to pay.

Since the early history of Georgia gold has been known to be in large quantities locked in hills and mountain fulte efforts have been made to extract the precious metal.

In fact, it is claimed that Georgia is more rich in gold than any other state in the union, the glittering sands of California not excepted, but, unfortunately for Georgia and many of her enterprising men, 95 per cent of the gold is a sulphide and has been little if any extracted. Little gold of Georgia for large deposits of gold is so well known that eighteen months ago two men, who had toiled a quarter of a century in the pursuit of gold in the far west often with nothing but the dome of heaven "for a roof," came to Georgia to perfect a process for the recovery of gold from these sulphide ores.

These men were Messrs. A. M. Bean and Hugh Calhoun, the fathers of the process.

J. S. Hamilton, of Athens, who has charge of the manipulation of the new process, has written to me for advice. He came to have Professor F. N. Platt, the well-known chemist, to make a test of the work of the newly discovered method.

Professor Platt is the man who figured so prominently in the discovery of the phosphate rock that was so valuable to the development of northern and local capital with such compensating revenue along the southern coast. He is also the man who had so much to do with the discovery of the rich veins of iron in the Birmingham section of Alabama and his report on this comparatively untried process of extracting gold from ores can but interest scientists, engineers and capitalists with money to invest alike.

Following is an extract from his interesting report.

Atlanta, Ga., June 17, 1893.—Mr. J. S. Hamilton, Athens, Ga. Dear Sir: On May 26th I was requested by you to proceed to Gainesville and examine processes into which you have been led to believe for the efficient in the mining of gold from certain refractory ores.

These processes are more particularly described in the specifications of United States letters patents No. 482,532 and No. 482,216, issued respectively to Hugh Calhoun, A. M. Bean, and F. N. Platt, and Hugh Calhoun and A. M. Bean. To these letters patent I respectfully refer as accurately containing the claims and a detailed description of the mechanical parts of said

process.

The one used in this test was taken from the Stringer property, which was at one time mined as a commercial business and abandoned after an expensive machinery had been brought in to recover the gold.

It was discovered that the owners could only recover 58 cents per ton, which was considerably less than the cost of production.

The crude ore was taken by Mr. Pratt and one day was given to testing all methods previously employed for the recovery of gold from these sulphides.

The results were as follows:

## As to the Sherman Law.

The following communication on a  
 subject of exceeding interest at this par-  
 ticular time is of sufficient importance to  
 merit reply, and we answer it in the  
 same spirit that prompts its author to  
 make the inquiry:

Griffith, Ga., June 21.—Editor Constitution:—While I thoroughly agree with you in the statement that the Sherman law is not the sole cause of the present financial depression, and also with your denunciation of it as being in a great measure responsible for the present hard times, I would like to have your opinion as to whether or not those who favor its repeal and the substitution of the remedial measures proposed by it as a miserable makeshift, should combine both principles in one bill. In other words, would it not jeopardize the repeal of the Sherman law to en-  
 courage the fight for it with other issues? Why not repeal the law as an entire, and then let the administration take up the business of the country from further depression at a moment's notice if it will only exercise the power vested in it. Will it throw the rope?

An extra session of congress is not only advisable, but it has become an absolute necessity!

Will the administration do its duty?

## On the Right Line.

The committees now at work in the interest of the Atlanta Manufacturers' Aid Association have made gratifying progress.

With additional subscriptions to the amount of \$20,000 the association will be able to organize and settle down to business. The committee of one hundred appointed to solicit subscriptions hope that it will not be necessary to call on any citizen more than once. The details of the plan are now generally understood. It is proposed to obtain subscriptions to the amount of \$50,000, with the privilege under the charter of increasing the capital stock to \$500,000. The shares will be \$50 each, and they are to be paid for in installments of \$125 per month. The money thus raised will be loaned to such old and new manufacturing enterprises as the directors of the association may consider deserving and safe, and it is confidently expected that many enterprises will be drawn to Atlanta and that they will swell our population and add many thousands of dollars to the money spent here every week by wage-workers.

The thing for men and women to do is to make up their minds to enjoy the pleasures of society sensibly and honestly. When they see that their incomes will not justify them in keeping pace with society they should content themselves with simpler habits and quiet lives. In the long run they will be all the happier.

for American securities. It would probably demonstrate that no additional money would be needed for some time to come, but we think some amendment should be made to the national banking law that would permit the issue of circulation on sound securities, and not confine the same, as at present, to United States bonds. We have known the volume has greatly decreased. We are inclined to say that the 10 per cent tax on state bank circulation should be reduced to 1-2 per cent, as with proper safeguards, some small change would give the relief that is requested by those who are clamoring for more money. Congress should promptly repeal the Sherman act and then give the other propositions careful consideration, even if it requires several months of its time.

After the repeal of the Sherman act there is but one thing to do, and that is to stand flat-footed on the democratic platform. It will not do to accept in its stead the opinion of any one man, or set of men. The democratic party has solemnly decreed what should be done, and if any course is taken contrary to its open declaration it will be in full faith and will have a bad effect.

What the country wants now is an extra session! It wants it above all things. The cry is that of a drowning man calling for help. The administration stands on the bank, rope in hand, and it has in its keeping to protect the business interests of the country from further depression at a moment's notice if it will only exercise the power vested in it. Will it throw the rope?

It is one reason why men leave the safe pathway of business for reckless speculation.

It is one reason why cashiers and clerks fall into the gambling habit.

It is one reason why men yield to temptation and become defrauders.

It is one reason why there are so many American fugitives in Canada, and so many in the lunatic asylums and so many in the graves of suicides.

The thing for men and women to do is to make up their minds to enjoy the pleasures of society sensibly and honestly. When they see that their incomes will not justify them in keeping pace with society they should content themselves with simpler habits and quiet lives. In the long run they will be all the happier.

in the crowd and never heard from. It is the individuality that wins, but the man must be otherwise equipped for his work.

## One Reason Why.

According to a recent fashion writer, the young man who proposes to adapt himself to the full requirements of society will have to spend at least \$3,500 a year on his clothes alone. If his other expenses are worthy of his fashionable attire he must have an income of at least \$10,000 a year to enable him to keep in the swing.

Now, thousands of young men are drawn into society whose salaries and incomes are very far under \$10,000, and if they keep up with the procession some must foot the bill.

It is to be feared that in many instances the wrong parties foot the bill. Employers find to their surprise that they have unconsciously furnished the funds needed by the society young men in their establishments. Banks are victimized in the same way. People who have trusted their money to others suffer in order that some young men may spend \$3,500 a year for clothes.

The extravagant expenditure of society in our large cities is one reason why we have so many financial disasters. The country wants now is an extra session! It wants it above all things. The cry is that of a drowning man calling for help. The administration stands on the bank, rope in hand, and it has in its keeping to protect the business interests of the country from further depression at a moment's notice if it will only exercise the power vested in it. Will it throw the rope?

An extra session of congress is not only advisable, but it has become an absolute necessity!

Will the administration do its duty?

## On the Right Line.

The committees now at work in the interest of the Atlanta Manufacturers' Aid Association have made gratifying progress.

With additional subscriptions to the amount of \$20,000 the association will be able to organize and settle down to business. The committee of one hundred appointed to solicit subscriptions hope that it will not be necessary to call on any citizen more than once. The details of the plan are now generally understood. in the crowd and never heard from. It is the individuality that wins, but the man must be otherwise equipped for his work.

## Where Speaker Crisp Stands.

It is easy to understand why certain northern newspapers, like The New York Times, should ask Speaker Crisp misleading questions about the Sherman law, and then resent his independence in pursuing the even tenor of his way, without attempting to condense his views within the limits of a brief telegraph.

We can understand why certain southern newspapers, like The Gold Ring of Wall street, but it is not so easy to explain such a course on the part of a southern newspaper. The Charleston News and Courier quotes Mr. Crisp's telegram to The Times that there was "no answer" to its question, and says:

"We are not surprised. A good player ever shows his hand. We shall be surprised, however, if the members of the fifty-third congress do not make some inquiries as to where the candidates stand before the vote for speaker.

The Charleston paper will find in due season that the Georgia congressional delegation will satisfactorily answer all proper questions at the proper time. For the present he takes it for granted that all genuine democrats understand that he stands squarely upon the democratic platform, and, therefore, favors the repeal of the Sherman law in order to provide for the free coinage of gold and silver, with no discrimination against either. This position, we cannot doubt, will be upheld by South Carolina, in the future, as in the past.

The bulldozing questions propounded to Speaker Crisp by the northern sympathizers with the Wall street money power are not likely to mislead loyal democrats, and if a southern newspaper, here and there, gets on the wrong track it will get new light on the situation when the democratic platform majority in the house re-elects Mr. Crisp to the speakership.

in the crowd and never heard from. It is the individuality that wins, but the man must be otherwise equipped for his work.

## JUST FROM GEORGIA.

When a Feller Takes a Day Off.

When a feller takes a day off—sets his soul to loafin' round Where the hills climb up to heaven, an' the rapid rivers sound.

'Tears like the world is newer, with its loneliness and light, An' his eyes are seen' truer, an' his heart's a-beatin' right!

When a feller takes a day off, there is lots o' things to see; I kin hear the winds away off, jes' a-welcomin' of me; An' the violets peep so purty! an' the rose I user miss.

Feels the red a-rushin' round it, an' comes clumbin' for a kiz!

When a feller takes a day off, there is lots o' things to see;

## THEY ALL LIKE IT.

The Constitution's Anniversary Issue.

Cherokee Advance: Last Sunday's edition of The Atlanta Constitution contained forty pages, and was the best edition of that paper gotten out in a long time. The Constitution is a great paper.

The Cordelean: Last Sunday's edition of The Atlanta Constitution was a big thing even for that enterprising daily. It contained forty pages and was the twenty-fifth anniversary edition.

Jesupianian: Constitution of Sunday last is so big and has so many pages it looks like a full year's file of a weekly paper. It was its twenty-fifth anniversary. May it complete its hundred and continue to grow great and good in the wish of The Sentinel.

Social Enterprise Gazette: The Constitution of last Sunday was a mammoth edition of forty pages richly illustrated and contained many columns of extra copy. It was the twenty-fifth anniversary of the paper, and the managers fitly celebrated the day. We have rolled the paper up and put it away for safe-keeping and prize it as a piece of the best literature in our possession.

McRae Enterprise: Last Sunday The Atlanta Constitution celebrated its twenty-fifth anniversary. The Constitution is a good paper. It is well written and edited and induces many thousands of people, and nine times out of ten it is on the right track. It is a rare thing that The Constitution makes a mistake, and when it does it is liberal and conservative enough to make amends. The Enterprise wishes The Constitution many years of usefulness yet.

Sanderson Herald and Georgian: The Atlanta Constitution of Sunday last its twenty-fifth anniversary was a good paper. The Constitution is to be congratulated not only for this issue, but merits constant congratulations for its tireless enterprise, the viracity and ability of its editorial work, and beauty of its dress. The Constitution is a good paper and an illustration to Georgia journalism.

Brown's New South: The Atlanta Constitution of Sunday, June 18, 1893, reached the acme of American journalism. It was a hummer from Hummersville, and the man who edits The Billings Banner never contributed to a more creditable paper. The Constitution has always been a good paper, and its editor, Mr. John Lehman, is known for the good work he has done for the good people of the state.

Columbus Press: General Longstreet charges that the confederacy would have succeeded had it not been for Mr. Davis. The country will laugh at such a suggestion.

Marion News: The American Times-Recorder thinks it might be a good idea for "Flem Douglass and Bob Berner" and others who aspire to senatorial honors to go to Chicago and kiss the blarney stone.

Gainesville Eagle: There is great danger of James Temple Graves, the silver-tongued orator of Georgia, becoming an issue at the white house.

Thomasville Times: The following from a western paper is prayerfully commended to the solons of the Georgia legislature: "Georgia farmers want to raise sheep, but the majority of Georgians prefer to raise cows and 'possum dogs, which don't oblige sheep meat for variety in diet."

Athens Banner: One word of parting advice we will venture to the graduates: Put your tent in Georgia. The solons attend the schools of the Georgia legislature.

Notwithstanding the dull times and scarcity of money, the business men of Canton report business as good as at this time last year. The prospects for good crops were never better than at the present time.

A daily mail from Canton to Freemasonville has been established, which will go into effect July 1st. This will give the people along that route a good mail service.

Ex-Postmaster Edwards, of Canton, has a "wild chicken chain" in the vicinity of the old copper mine hills. Last week he overhauled a wagon from his store near Waleska loaded with chickens, eggs, butter, etc., about three miles from town and lost \$25 in broken eggs, missing chickens, etc.

The largest deer ever killed in Catoosa county was shot by Mr. W. J. Brotherton. The deer was remarkable for its size and was an object of curiosity to the citizens.

Athens Star: Old George's happy as can be—There ain't no doubt of that, For while the simmon's on the tree, The bee is in the hat!

A Georgia editor declares he "lost all he had" in a bank failure. Did the river bank cave in on his fishing tackle?

SPARKS FROM GEORGIA.

The Statesboro Star says that the fact that the farmers of Bulloch county are in better shape now than in many years out, that cannot be denied.

The banks of Savannah have begun to announce their summer dividends. The first appeared in The Press of Wednesday.

## A COUPER MEETING.

But It Broke Up Without Doing Much,  
So They Say.

## WILL SENATOR GORDON GIVE IT UP?

Some of the Couper Men Understood Him  
to Say He Would If Senator Colquitt Would Quit With Him.

The very latest thing out in the race for the Atlanta postmastership is a red-hot, lively story just come to light about a meeting held the other day in a certain office in the city for the purpose of advancing the claims of Mr. Couper, one of the applicants, by his friends.

It seems that the meeting was called at the instance of Senator Gordon, who, it is known, has all along backed Mr. Couper in the race.

About a dozen friends of Mr. Couper gathered at the call and talked matters over.

One of those present tells the story of the meeting very interestingly, but excused the understanding that his name was not to be mentioned in connection with it.

It seems that Senator Gordon made a little talk to the friends of his favorite applicant for the postmastership in which he declared that he had learned directly from the president that it is useless for the two senators from Georgia to be holding on fast to their choice in the matter and said that he knew it was the intention of the president, if the two senators did not soon agree on the matter by uniting their support on some one of the three candidates named for the place, to appoint a dark horse—some man who had not applied for the place up to that time.

"Now, as for me," said the junior senator, "I am for Mr. Couper in this business firmly. He is my choice and I will not withdraw my support from him until the thing is up with us. But, I tell you, it will be a dangerous policy to allow a division here to cause the president to go out of the three applicants for the place and select a postmaster in a dark horse. He says there are a plenty of good men in Atlanta to fill the place and he will certainly put some of them in the office if the two senators don't unite on some one of the candidates named."

"It is necessary, therefore, for some agreement to be reached. I am for Couper, Senator Colquitt is for Fox. If we could agree on one candidate it would be smooth sailing and the appointment would be made without delay. How can it be arranged?"

Just at this stage of the game it is told that a young man tall and straight with a light suit of clothes on and a straw hat on his head, and a star on his coat sleeve, canvassed the situation carefully and thought Mr. Couper was the man for the place. He though some pressure ought to be brought to bear on Senator Colquitt in face of the president's declaration to withdraw his support of Dr. Fox and unite to give Mr. Couper in the office, since it was the president's wish that the two senators agree.

The informant said he did not know who this young man was. He said he had not seen him around Atlanta much lately and could not place him to save his life.

**What Mr. Marsh Had to Say.**

Last in the meeting Mr. E. W. Marsh, was asked what he thought. He said he thought he ought to be done. He is said to have spoken in a spirit of harmony, advising that it would be no harm to Atlanta if any one of the three candidates for the office were appointed. He had signed the application for Mr. Couper, but he knew Mr. Kontz would make a good postmaster and respected the ability of Dr. Fox equally as much as he did that of any of the applicants.

Mr. Marsh was seen by a Constitution reporter yesterday afternoon and asked for an account of the meeting.

"Why the property is not burnt. Why should it be? Goodness gracious, it will not burn down. I am not in the habit of allowing any of my property to burn down."

He then asked for a copy of the "Phoenix."

"I don't know what the meeting do after this?"

"We broke up without doing anything," was the reply.

New Orleans is rejoicingly awaiting the arrival of a bureau of investigation, which is expected to bring out the truth of the pugilistic and professional boxing matches, the pugilists being the managers of the pugilists.

It is causing too many disturbances instead of some "poets of passion" of pugilism.

Mr. McDaniel, who was quoted as making a speech as harmonious as Mr. Marsh, was seen by the Constitution and said:

"Yes, I said that while I was for Mr. Couper, having signed his application, still I could not take an active hand in the matter, for I did not want to interfere with politics, as a politician, alone, while I am for Couper, I have the highest respect for the other candidates for the office and know they would make good postmasters. We didn't do anything."

"That would mean Kougi, wouldn't it?" was asked.

"I don't know," said Mr. Marsh.

"Did not the meeting do after this?"

"We broke up without doing anything," was the reply.

"I Am No Politician."

Mr. Chamberlin, who was quoted as making a speech as harmonious as Mr. Marsh, was seen by the Constitution and said:

"Yes, I said that while I was for Mr. Couper, having signed his application, still I could not take an active hand in the matter, for I did not want to interfere with politics, as a politician, alone, while I am for Couper, I have the highest respect for the other candidates for the office and know they would make good postmasters. We didn't do anything."

**LETTERS FROM THE PEOPLE.**

Editor Constitution—Believing that you wish to present to the public a fair and just view of all questions affecting the welfare of the people, I ask leave to reply to the criticisms you have made of the ordinance recently passed by the city council of Atlanta fixing the street tax at \$3 per capita.

Franklin county, Alabama,

and was found peace-

with her head pit-

snake which had not

service from every person subject for many years to come.

Again, a large majority of the voters of this city pay very little tax to support the government. They have no real estate and give in a small amount of personalty, children, police, fire, free schools for their children, police protection, fire protection and many other benefits which the taxes paid by others pay for.

I cannot believe there is an honest laborer man in Atlanta, and as a rule they are fair men and honest, and just as any other class of people who, when he understands the position, will fail to admit the justice of the tax, and cheerfully pay the same.

The truth is, this street tax has been made unpopular because of the manner in which it is levied, and the fees of \$1 given having heretofore been paid by the marshal. After the 1st of July the marshal is sent out and the tax and all perquisites that come from defrauds will be paid into the city treasury.

It cannot be believed there is a citizen in the city of Atlanta, white or colored, patriotic as to murmur at paying \$3 a year towards the support and maintenance of the greatest and most progressive municipal in the south. If there are such, it is necessary to teach them patriotism by forcing them to contribute something in consideration of the many privileges and benefits they enjoy.

I am amazed that the mayor should see fit to veto this part of the tax ordinance, and I am sure the able and distinguished chairman of the tax committee that it is useless for the two senators from Georgia to be holding on fast to their choice in the matter and said that he knew it was the intention of the president, if the two senators did not soon agree on the matter by uniting their support on some one of the three candidates named for the place, to appoint a dark horse—some man who had not applied for the place up to that time.

And now, Mr. Editor, I think upon reflection you will conclude that your position in this matter is wise. I hope you will make the same nomination and join in with the general council to make this a law notwithstanding the mayor's veto. Respectfully,

WILLIAM P. HILL.

Atlanta, Ga., June 23, 1893.

## THE NEW BRIDGE

Over Forsyth Street Will Be Ready on the 4th Day of July Next.

The Forsyth street bridge will be completed by the 4th of July and at that time will be turned over to the city as one of the finest and safest structures in the world.

The bridge has been under construction for nearly a year.

The bridge over six hundred and fifty feet in length and stretches from Marietta street to Alabama street over Forsyth street fronting The Constitution building. It is a magnificent structure and there is none in the state comparable to it.

The Forsyth street bridge is constructed of rock, iron and steel, there being not a single piece of wood in the entire affair. The steel and iron used in the construction of this grand piece of architecture specially designed for this bridge, being specially imported from England, cost \$100,000.

Billy Earle came up first for Birmingham and took his base on four balls, but in trying to steal second by Newman, Mots stole third. Earle went out trying to steal third. Mots stole second, but was left there by Duffee, who went out from third to first.

Billy Earle came up first for Birmingham and took his base on four balls, but in trying to steal second was thrown out by Murphy to Ely. Urich went next to Duffee, who took his base on four balls, but in trying to steal second was thrown out by Murphy to Ely. Earle went out trying to steal third. Duffee, who came up first for Birmingham and took his base on four balls, but in trying to steal second was thrown out by Murphy to Ely. Murphy out at first, making a pretty double play and retiring the side.

Hughes started the game with a single, then got in the ninth inning of the last game to win the title of the month.

In the second inning after Connor had gone out Camp hit a single. Murphy hit to Taylor and was safe on a foul. Hughes then got in the ninth.

In the second inning after Connor had gone out Camp hit a single. Murphy hit to Taylor and was safe on a foul. Hughes then got in the ninth.

The NEW YORK MARKET.

The Day on the Floor of the New York Stock Exchange.

NEW YORK, June 23.—The stock market was weak and unsettled today. The bears jumped on the market at the opening regular session, and the market closed 1-1/2 per cent lower, and for the time speculation ruled tolerably firmly. The bank failures out west, however, continued with the stringency in the local money market, and the failure of the Read plan of readjustment started up a fresh selling movement as the day advanced and in a few instances important declines were made. Late short sales of the Louisville, Manhattan and Sugar finished 1-2 to 3 per cent. The losses in the remainder of the lists were 1-2 to 1-3 per cent. A number of stocks, like the Grangers, Northern Pacific, Reading, New York Central, Missouri Pacific, General Electric and Atchison show fractional declines for the day. The dealings were strictly professional, the commission house brokers being very circumspect in their movements by their clients in consequence of the difficulty in securing accommodations at banks. At the close the market was weak in tone at a recovery of 1-8 to 2-8 per cent from the lowest. Sales 150,000 shares.

Railway and miscellaneous bonds dull and heavy. Sales \$533,000. Richmond Terminal trust 5s fell 5 to 5-1/2 per cent. The market was active, ranging from 7 to 20 per cent. Last closed off at 20. Prime mercantile paper 6 to 8 per cent. Sterling exchange weaker, with actual business in bankers' bills at 482-3 to 483 for sixty days, and 484-3 to 485 for demand.

J. S. Riche & Co., Stock Letter.

NEW YORK, June 23.—The financial trouble seems to have passed, and the strain on California banks necessitated a shipment of nearly four millions from here. It's to be hoped that the course of troubles will continue west and finally be lodged in the Pacific ocean never to return. Money rates have been paid higher than any time so far. The bears were unprepared in their seal to bring about a lower range of prices and were successful to the extent of 1 per cent. The market is in a quiet position, but our monetarist trouble is over. Checks for government funds will be issued on Monday, and as above, from July 1st come to this city, this should have quite an elevating effect upon the money market. The draw on the bearing market will not be as bad as some people anticipated as the 1st of July has passed we expect to see a return to the center, making much lower rates for our turn producing higher prices. The favorite of the bears today was sugar in which we understand there is a great deal of activity. The number of clearing house certificates taken out by New York banks was about \$5,000,000 so far.

THE COTTON MARKETS.

on Marietta street, over  
with several small houses;  
cheap, as owner intends leav-  
ings for sale, some near At-  
lanta, the fruit section of Griff-  
fins.  
farms. Real estate loans  
local terms.  
**GOODWILL & WILLIAMS.**

**TOLLESON'S AFFAIRS**

Were Aired Again Before Judge Marshall  
J. Clarke Yesterday.

**PORTER STOCKS'S CASE WILL NOW**

Go to the Supreme Court, as a Bill of Ex-  
ceptions Has Been Filed—Other  
Courtroom News.

The first step towards securing the liberty of  
Porter Stocks has been made by his  
attorneys.

The exact nature of the step was the filing of  
a bill of exception with Judge Richard  
Clark, but, as yet, the Judge has not signed it.

The ground set forth in the bill of ex-  
ception is the pica of former jeopardy,  
upon which such a hard-fought battle was  
made by both sides before Judge Richard  
Clark.

The bill will probably be signed by Judge  
Clark today, and the plea will be taken  
to the supreme court, where it will be  
argued by the attorneys for Stocks and for  
the state. It was only after a long con-  
sultation that the attorneys for Stocks de-  
cided to take such action, but it was finally  
concluded that the filing of the bill of ex-  
ception would be the best thing to do under  
the circumstances.

The bill does not take exception to the  
verdict of manslaughter, but, as stated  
above, makes but one issue—the plea of  
former jeopardy.

The argument of the defense will be, of  
course, as will be the state's side, more  
stated before the supreme court; that  
Judge Clark will have to decide whether  
Stocks' attorneys will argue that Judge  
Richard Clark had no right to excuse  
Juror Corley, and to declare a mistrial.  
It was only after a long con-  
sultation that the attorneys for Stocks de-  
cided to take such action, but it was finally  
concluded that the filing of the bill of ex-  
ception would be the best thing to do under  
the circumstances.

The bill does not take exception to the  
verdict of manslaughter, but, as stated  
above, makes but one issue—the plea of  
former jeopardy.

Beasley are as follows:

The state will necessarily occupy the same  
place as was taken before, when Judge  
Clark will make a final decision of former  
jeopardy and sustain the demand of the  
state. It will be argued by the state along  
the line that the consent of the jurors was  
called out and told the state that it was  
not needed, and, also, that it was for a pos-  
sible cause that Juror Corley was al-  
lowed to go, and that it should be extremely  
proper that the judge that it should be a mistrial.

The trial, of course, will be backed up by  
decisions to the effect as to what consti-  
tutes a legal and valid reason for de-  
claring a mistrial.

## HE PLEAD GUILTY.

James Green Was Sentenced by Judge Newman Yesterday,

TO THREE YEARS OF HARD LABOR

In the Ohio Penitentiary, in Addition to a Fine of \$500—A fine to the Weather Man.

James Green entered a plea of guilty yesterday morning in the federal court before Judge Newman, and was sentenced to three years of hard labor in the Ohio penitentiary, in addition to a fine of \$500.

Green was charged with stealing the contents of a little postoffice in Gordon county several weeks ago. He was caught by the officers of the law and lodged for safe-keeping in the jail.

When the case was called yesterday morning Green confessed to the charge, and sentence was immediately passed upon him by Judge Newman.

Three years of hard labor in the penitentiary is quite a severe penalty. The offense of breaking into a postoffice, however, and stealing therefrom, its entire contents is considered a crime of the deepest dye, and merits as such the fullest condemnation of the law. Green will put on the stripes as soon as he can reach his destination.

Judge Newman in Chambers.

Judge Newman will be in chambers today and several important motions will be heard.

All who have legal documents to bring before him will give the matter their attention this morning, as Judge Newman will leave for the springs on Monday for his summer vacation.

Before he leaves he will draw the grand jury for the fall term of the court.

Mr. Fuller Will Take a Vacation.

Mr. O. C. Fuller, the genial clerk of the federal court, will take a vacation next week for a week and the world's fair.

He will be absent for two or three weeks and will take his family with him to see the sights of the great exposition. Mr. Colquitt Carter and Mr. George Bernard will look after the office while the clerk is away, and everything will move along smoothly.

When Mr. Fuller returns the other clerks, in their order, will leave for the summer resorts, for the purpose of resting up after a hard year's work, and to brace themselves up for the work of fall.

A talk with the Weather Man.

The weather man, who has his office in the top of the custom house, has finished his report for May, and the figures are interesting.

"How is the report," said he, "for last month, and will you find it a very interesting document?" With that remark he tossed a heavy roll of parchment over on the table, and from a glance over the paper the following facts were extracted:

The month was exceptionally wetter than the rainfall, scattered over the western part of the state, from the southern border to the northwest corner, the rainfall was over six inches.

Over the southeastern quarter there was less than three inches, while in other parts of the state the rainfall is to have been slightly below the normal.

A few light frosts occurred in the extreme northern part of the state, but were not of sufficient severity to cause any damage to the crops.

The average rainfall from the records of sixty-five stations was 2.54 inches, ranging from 7.68 inches at Thomasville to 1.20 inches at Duran.

The average temperature from the records of fifty-two stations was 70.5 degrees. The highest monthly mean was 75.6 degrees at Dalton, the lowest, 65.1 degrees, at Dalton.

The maximum temperature of the month was 100 degrees, recorded at Americus, Cordele, and Hawkinsville, on the 21st. The minimum was 38 degrees, recorded at Dalton, on several occasions. The greatest daily range was 48 degrees, at Dalton, Dawson and Millen, on the 20th. The least degree at Bainbridge, on the 17th; Toccoa, on the 3d; Gillville, on the 15th, and Hephzibah, on the 7th.

From the records of thirty-eight stations reporting the state of the weather, there are shown an average of fifteen clear, nine partly cloudy and seven cloudy days. The prevailing direction of the wind was west.

Angostura Bitters, endorsed by physicians and chemists for purity and wholesomeness, Dr. J. G. Sieger & Sons, sole manufacturers. Ask your druggist.

REDUCED RATES TO THE WORLD'S FAIR.

They tell the story of the merit of Hood's sunglasses. Hood's cues.

PERSONAL Conducted Excursions to the World's Fair, Dr. V. & G. R. Ry.

Mr. Charles N. Kight, so many years, was connected with this company, in the capacity of assistant general passenger agent, has kindly consented to conduct a select party to Chicago, leaving Atlanta on July 1, for a stay of about ten days to two weeks. Mr. Kight's thorough knowledge thereto makes him thoroughly capable of taking charge of such an excursion as the above. He will be accompanied by Mrs. Kight, so that ladies may be able to join the party.

The route for the above excursion will be via Lookout mountain, over the historic and beautiful Queen and Crescent, Chattanooga, to Cincinnati, thence via the Cincinnati and Dayton, and Monon routes to Chicago. Tickets and reserved seats can be secured at the Young Men's Christian Association. The public is cordially invited to come out and enjoy a pleasant evening and assist a worthy cause.

Summer course begins next week. Special classes will be formed for students of private and public schools. For particulars and applications address Professor Ed Wellhoff, Director.

## WILL BE PAID NOW.

Heretofore There Has Been a Great Deal of Work and No Pay

IN THE ELECTION MANAGER'S OFFICE.

The Polls Were Closed in the Fourth Ward Last Election—No Election at All in West End.

The county commissioners decided yesterday morning that in the future the managers and clerks in all the county elections shall receive pay for their services.

This action on the part of the county commissioners was the outcome of numerous kicks, the closing up of the polls in the fourth ward when the county bonds were being voted for, and the non-appearance of the election managers in West End and the attendant consequence of no voting in the soon-to-be seventh ward.

At all the elections heretofore, it has been the habit of the managers of the elections and the clerks to go without dinner unless it was furnished to them by the candidates, who are usually numerous enough to stand the expense of foot-ing the bill. Sometimes, however, the candidates are few and far between, and to pay for the meals of the many election managers necessary to the conducting of a county election, would require a small fortune.

What the vote was being taken on the county bonds for a new courthouse, a new jail and a reformatory—the election for the city water bonds was on at the same time—one of the polls closed up. This happened in the fourth ward. The managers were informed that they would receive no pay for what they were doing, and that they also would have to furnish their own dinner, providing, of course, they cared to dine. The news was exceedingly discouraging, and the managers, after consulting with the clerks, decided to adjourn sine die, after having held the fort for nearly an hour.

In the election of Thursday for representative from Fulton county, there was no voting at all in West End; the election managers and clerks failed to materialize. No cause in particular was assigned to the failure of the gentlemen appointed to show up on schedule time, but the county commissioners are gentlemen of broad ideas, and keen perception, and it did not take them long to determine the positions of election managers and clerks had too much honor and glory about them, when compared to the amount of money involved.

The immediate cause of the county commissioners' action in allowing the managers and clerks in county elections a small compensation is the action of the managers and clerks in the last bond election. The managers thought that they should receive \$8 per day, and the clerks asked for \$3. After a little argument upon the subject of free coinage and the financial pressure, it was decided to pay the managers \$4 per day and the clerks \$2.50.

There has been no provision heretofore in regard to the paying of the managers and clerks, and it was a question that has never been met fully. It was thought that those who worked for the county should be paid.

A resolution to the effect that in the future the county election managers shall receive \$3 per day and the clerks \$2.50 was adopted.

TYNER'S DYSPEPSIA REMEDY.

"It's indigestion that drives out the sunshine and destroys the flower of life."

I do not claim that Tyner's Dyspepsia Remedy will cure every thing, but that it will cure DYSPSEPSIA and counteract every influence it yields. Without intruding upon your notice a patent nostrum, I am pleased to call your attention to this remedy, carrying the usual advantage of having the PUREST DRUGS in its manufacture. I also claim for it SPECIAL MERIT in the fact that the balance of each ingredient is as exact in proportion as science

can make it. One dose of Tyner's Dyspepsia Remedy will correct indigestion in FIVE MINUTES AFTER HEARTY MEALS. People may gratify any demand their insatiable appetites may make and know absolutely that one dose of Tyner's Dyspepsia Remedy will prevent indigestion. It assists the gastric juice in its work. No way injurious from the fact of its being entirely free from all poisonous drugs. It is for sale by all druggists.

An Act of Charity.

The matter of giving aid to charitable institutions was disposed of in short order by the committee of the Young Men's Christian Association meeting next Monday evening. In addition to the principal feature of the evening Miss Lemon Sheehan has arranged a splendid musical programme composed of some of our leading musicians. The entertainment is for the benefit of the Young Men's Christian Association.

The city council some time ago agreed to pay half the expenses of paving the street about the courthouse with asphalt in order that the noise might be lessened. The county commissioners agreed to do their part and took action accordingly.

Nervous headaches promptly cured by Bruno-Seitzer—Trial bottle 10c.

BETTY HAMILTON.

A treat is in store for those who attend the meeting of the Young Men's Christian Association meeting next Monday evening. In addition to the principal feature of the evening Miss Lemon Sheehan has arranged a splendid musical programme composed of some of our leading musicians. The entertainment is for the benefit of the Young Men's Christian Association.
